

PUBLISHING TO WINNSPACE

1

LOGIN/ REGISTER FOR WINNSPACE

- A. Faculty can log in at winnspace.uwinnipeg.ca with their [WebAdvisor username/password](#).
- B. Once logged in, contact winnspace@uwinnipeg.ca and we will create a collection for your publications on WinnSpace and set permissions so you can submit to your collection.

2

CHECK YOUR COPYRIGHT

- A. You need to ensure you are allowed to self-archive your work, if it has been previously published. The easiest way to do this is to check [SHERPA/RoMEO](#).
 - B. Search [SHERPA/RoMEO](#) for the Journal Title for your article and identify the appropriate version of the article you should submit. SHERPA/RoMEO is a reliable indicator regarding what you can self-archive, but your contract may have additional specifications.
 - C. Depending on the publisher, you may need to provide an [alternate version](#), such as a preprint, post print, or publisher's pdf with a specified cover page.
- D. If your work is [unpublished](#), you may still need to clear rights to reprint [third party material](#) (such as images) before you submit. Contact the Copyright Office if you suspect this may be the case.

3

SUBMIT YOUR ARTICLE

- A. Begin a [new submission](#).
- B. Enter the appropriate information for your publication (title, authors, etc). Give real consideration to your [subject headings](#)—the better this information is, the more discoverable your work will be.
- C. Upload the [appropriate version](#) of your file. (Note: be sure the [file is named appropriately](#) before uploading, as this is not easy to change once it has been uploaded.)
- D. [Review](#) your submission and correct any errors.
- E. Agree to the [WinnSpace Licence](#) and complete the submission.
