Annotated Bibliography Assignment
DUE: June 11, 2004
Worth 20% of final grade

Purpose:

To familiarize the student with library and database resources that will be useful for their final paper, as well as provide the student an opportunity to build a base of resources for the paper.

Description:

A 20-item annotated bibliography in APA format with introduction and conclusion.

Instructions:

During the daily research sessions (11:45-12:30) the student will search for books, journal articles and websites. This research can initially be oriented to that day's theme, but should be geared towards ultimately providing you with a foundation for your final paper.

After reading the materials you've gathered, prepare annotations for 20 of them. Each entry should include the citation (formatted according to APA - American Psychological Association – for an quick overview see the Online Writing Lab at Purdue University: http://owl.english.purdue.edu/handouts/research/r_apa.html), along with a brief but sufficiently detailed description of the work. This should review the main purpose of the work, conclusion and general thoughts on the work's ability to support your own project.

The annotated bibliography should be framed with a short introduction that reviews the purpose of your bibliography and a conclusion which summarizes the material gathered within the framework of its applicability for your proposed research.

For assistance with this project, please feel free to consult with the University of Winnipeg Library Reference staff – who will be informed of this project in advance – or with IUS Research Associate Michael Dudley.
